

Open-Source searching matrix

Open-Source Name	Advantages	Disadvantages	Why we didn't use it OR Why we used it
Big Blue Button	<ul style="list-style-type: none"> • Open source for everyone • we don't have any copyright problems • allows for everyone • easy to use • nearly perfect open source 	<ul style="list-style-type: none"> • It's perfect open source • no need to add anything 	We will not have many tasks until the end of the term
Open-Source from GitHub	<ul style="list-style-type: none"> • Can start a meeting with 1 or more users 	<ul style="list-style-type: none"> • Difficult to start 	we didn't know how to start the program.
Open-Source from GitHub 2	<ul style="list-style-type: none"> • Just 1 to 1 so it doesn't support many users 	<ul style="list-style-type: none"> • It doesn't have a good interface, 	We didn't consider it since it is not supporting many users
Open-Source from GitHub 3	<ul style="list-style-type: none"> • Support many users • Good interface • Easy to use 	<ul style="list-style-type: none"> • We must add so many things 	We chose it because it's the perfect one to our project and we can do a lot of tasks all the term, we accept the challenge.
